Professional Summary

Passionate CSE graduate continuously building full stack expertise through hands-on project development and structured DSA learning. Proficient in Java, Spring Boot, React.js, and SQL with a solid understanding of REST API design and frontend-backend integration. Committed to writing efficient, maintainable code and growing within a team-oriented development environment.

Education

Alva's Institute of Engineering and Technology, Mangalore

B.E - Computer Science and Engineering

Nov 2022 – May 2026

CGPA: 7.5 / 10

SB Arts And KCP Science PU College

Pre-University Course (PCMB)

Aug 2020 – Apr 2022

Percentage: 74%

Projects

Food Delivery Application

- Developed a full-stack food delivery application using Java, Spring Boot, Hibernate, MySQL, HTML, CSS, and JavaScript.
- Implemented user authentication, restaurant browsing, menu management, and order placement features.
- Designed RESTful APIs for seamless communication between frontend and backend components.
- Integrated MySQL database for efficient storage and retrieval of user, restaurant, and order data.

E-Commerce Website

- Developed a responsive e-commerce website using HTML, CSS, JavaScript, and React.
- Implemented product search, filtering, and shopping cart functionalities.
- Integrated REST APIs to dynamically fetch and display product information.
- Enhanced user experience through responsive design and interactive UI components.

Experience

Trainee Software Engineer Intern

Inventeron Technologies, Bangalore

Feb 2026 – May 2026

- Developed and tested backend modules using Java and Spring Boot as part of a collaborative agile development team.
- Assisted in designing and consuming RESTful APIs to enable seamless communication between frontend and backend services.
- Worked with MySQL databases to write queries, manage schemas, and support data retrieval for application features.
- Participated in code reviews, sprint planning, and team discussions to deliver software solutions within defined timelines.

Technical Skills

Languages: Java, JavaScript, Python

Frontend: HTML5, CSS3, JavaScript, React.js,

Backend: Spring Boot, Spring MVC, Spring Security, Hibernate, REST APIs, JWT Authentication

Database: MySQL

Core Concepts: OOPs, Data Structures & Algorithms,

Tools & Platforms: Git, GitHub, VS Code, Eclipse

Achievements

- Solved 100+ coding problems on LeetCode.
- Published a research paper on Artificial Intelligence for Circuit Design and Optimization – GINOTECH 2025.

Activities & Hobbies

- Reading Books like Atomic Habits , The Art Of Laziness
- Conducted “Python Payan” workshop for rural students to introduce programming basics.
- Participated in environmental volunteering and student mentorship programs.

Languages

- English, Kannada, Hindi
